Pitch for "Aliens Vs Jedi" film

To be directed by James Cameron (with assistance from George Lucas).

(the action takes place between Aliens and Alien³, and between Empire Strikes Back and Return of the Jedi)

Newt, from 'Aliens' is awoken from hypersleep somehow, and finds aliens and a new queen taking over the ship. She tries but can't awaken Ripley, Hicks or Bishop for some reason.

Something happens that causes Newt and all the new aliens to be transported a long time ago, to a galaxy far far away. To the swamp planet, Dagobah.

On Dagobah, Newt runs into Luke Skywalker and spirit Yoda, where Luke is completeing his training with spirit Yoda. Together they must rid the planet of the new alien peril. This, they think, they achive in a few hours before night fall.

After thinking that they have defeated the aliens, they discover that the local wildlife have been attacked and newly gestated aliens begin to burst forth, resulting in many new types of aliens. This results in a long nocturnal conflict.. with Luke, spirit Yoda, R2D2 and Newt having to defeat dozens of new aliens, and find the new Dagobah Queen Alien, before the eggs she is laying begin to hatch.

Our rough teaser poster for Aliens Vs Jedi (also to be known as "AVJ"). Actual posters will feature new Aliens, spirit Yoda and R2D2. Come on FOX, make this gem!!

The film also features R2D2. Of course.

(in closing, Newt is returned to her ship, ready to die in Alien³. This film also allows for illustration of the development of Luke's skills with the force between The Empire Strikes Back and Return of the Jedi to be shown)
